Tully Mountain

Wildlife Management Area

Orange
1,187 Acres

SIZE: 1,187 acres in several disjunct parcels. The topography is highly variable, ranging from steep slopes and mountain tops, flat open land and wetland.

U.S.G.S. QUADS: Mt. Grace, Royalston, Athol.

VEGETATION: Open fields, abandoned brushy fields, forested tracts of mixed hardwoods and softwoods which provides a great variety of habitat types.

WATER: West Branch of Tully Brook runs through the property which is a trout stocked water, as well as some small streams and wetlands.

WILDLIFE: Stocked pheasant, deer, turkey, bear, raccoon, woodcock. The mixed habitat also supports numerous non-game species.

**SPECIAL
REGULATIONS:** None
